TrialAssure®

Supporting Transparency Within Government

TrialAssure is a leading, global data transparency software and service provider based in Michigan. We are driven to provide greater public transparency while ensuring the protection of classified, sensitive, and identifiable data and information with our fast, affordable, and intelligent software and service solutions.

FOIA & PRIVACY ACT EXPERTISE

- **Proven track record of handling extensive Industry FOIA requests**
- **Reducing backlogs**
- **Enhancing transparency**

RISK-BASED QUALITY & COMPLIANCE

- **We adhere to a comprehensive audit and feedback systems**
- **ISO 9001:2015 Certification (pending)**
- **FedRAMP compliant**

DOCUMENT SECURITY & REDACTION

Utilization of cutting-edge technology for:
- **secure document handling**
- **redaction**
- **confidentiality of sensitive information**

AI-ENABLEMENT & CONTENT AUTHORING

Trusano AI and our robust IT infrastructure are specifically designed to:
- **meet the demands of FOIA request processing through the use of AI**
- **feature advanced security protocols**
- **provide scalable solutions to handle sensitive government data effectively**

Differentiators

Our unique advantage exists within our proprietary software, TRUSANO AI to:

- **Automate** redactions and anonymization of confidential, sensitive information and data (e.g., emails, text-based documents, and spreadsheets)
- **Enable** the creation of publicly-shareable documents for Freedom of Information Act (FOIA) in minutes, lowering the cost of FOIA processing, and reducing personnel time to process a FOIA request
- **Reduce** hours spent anonymizing by 75-80%, to support the elimination of FOIA backlogs
